SAMPLE REPORT / 2025

Community Safety Report

A sample framework for safety standards and review

IMPORTANT

This is a design sample, not an official company disclosure. Replace all sample language with approved and verified information before publication.

Prepared as a website report-library sample

REPORT OVERVIEW

A clear structure for approved reporting

01

Purpose

This sample demonstrates how Zvoni can explain community safety standards and reporting pathways.

02

Suggested scope

Prohibited content, user reporting, moderation review, appeals, escalation, and child safety commitments.

03

Publication standard

Safety reporting should protect personal information and avoid claims that have not been verified.

EDITORIAL NOTE

Use this structure as a starting point. Final language, figures, dates, and claims require review by the relevant Zvoni owners.

PUBLICATION CHECKLIST

Before this report goes live

1

Make reporting channels easy to find

Confirm the supporting evidence and approval owner before release.

2

Describe review and appeal steps

Confirm the supporting evidence and approval owner before release.

3

Protect sensitive case information

Confirm the supporting evidence and approval owner before release.

Recommended document details

- Reporting period and publication date
- Named review owner and version number
- Contact route for questions or corrections
