ZVONI

SAMPLE REPORT / 2025

Transparency Report

A sample framework for clear platform accountability

IMPORTANT

This is a design sample, not an official company disclosure. Replace all sample language with approved and verified information before publication.

Prepared as a website report-library sample

REPORT OVERVIEW

A clear structure for approved reporting

01

Purpose

This sample shows how Zvoni can organize verified transparency information in a clear, accessible report.

02

Suggested scope

Platform governance, valid legal requests, enforcement activity, appeals, and notable policy changes.

03

Publication standard

Every published figure should identify its reporting period, measurement method, and review owner.

EDITORIAL NOTE

Use this structure as a starting point. Final language, figures, dates, and claims require review by the relevant Zvoni owners.

PUBLICATION CHECKLIST

Before this report goes live

1

Publish only reviewed figures

Confirm the supporting evidence and approval owner before release.

2

Explain definitions beside metrics

Confirm the supporting evidence and approval owner before release.

3

Keep historical versions available

Confirm the supporting evidence and approval owner before release.

Recommended document details

- Reporting period and publication date
- Named review owner and version number
- Contact route for questions or corrections
